2 POVZETEK

Po napornem dnevu me pravljичni junaki v sanjah večkrat popeljejo po poteh misli, ki bi jih rada razumela in osmislila v vsakodnevnem življenju.

Dan v šoli je bil čuden, obeležile so ga večje in manjše laži... Vsa zmedena sem zaspala, v miren sen pa me je zazibal pravljичni junak Ostržek, ki mi je s čudovito pravljico poskušal razložiti današnji dan. Popeljal me je med učilnicami in šolskimi klopmi. Sošolci so se skozi dan sprehajali z majhnimi in večjimi lažmi. Nekateri so se postavljali pred svojimi simpatijami, drugi so hoteli biti samo opaženi, nekaterim pa je pogledati resnici v oči tako boleče, da tega ne počnejo več.

Da čudovita pravljica in veličastni Ostržek ne bi ostala samo sen in da bi si osmislila moj dan, sem se podala v raziskovalno nalogo o lažeh v šoli, z naslovom Ostržek v šoli.

Ker se laž pojavlja že zelo zgodaj, si ne smemo zatiskati oči pred resnico. Ampak se dovolj zgodaj naučiti in soočiti z njo in biti to kar smo. In ne biti to, kar si želijo drugi.

Zato sem se v nalogi poleg anket in intervjujev osredotočila tudi na delavnico Ostržek v šoli in samoevalvacijski koledarček Semafor laži.

Želim si, da bi se ljudje zavedali, da so laži, ki so del našega življenja, nepotrebne. Da lahko gradimo zaupanje drug do drugega in do samega sebe le z resnico.

ABSTRACT

In my dreams after a tiring day, the fairytale characters often take me along the paths of my thoughts, which I want to comprehend in my everyday life.

The day in school was a little strange, it was marked by smaller and bigger lies ... I fell asleep all confused, but Pinocchio who tried to explain the day with a wonderful fairytale, helped me sleep peacefully. He took me through the classrooms and school desks. The classmates walked through the day with small and big lies. Some of them have a crush on someone and they tried on to look good in front of them, others just wanted to be noticed. For some of them it is so difficult to look the truth in the eyes that they just do not do it anymore.

I did not want the great Pinocchio and the wonderful fairytale to stay only in my dreams, that is why I decided to do a research paper on the lies in school and I entitled it Pinocchio in school.

We can not close our eyes in front of the through because the lies start appearing very early in life. We have to learn how to cope with them and how to be who we are. And not be what the others want us to be.

That is the reason why, besides the questionnaires and interviews, I concentrated on the workshop Pinocchio in school and the self-evaluating calendar The traffic lights of lies.

I would like for the people to understand that the lies which are a part of our life are not necessary. Only the truth can help us build the trust among people.

Keyword: lie, lying, primary school pupils, secondary school students, participants of PUM.
